“Holy Basil as the name suggests,

has holy importance in our lives. Similarly, Holy Basil Mediclinic was solely established with a pious vision to offer quality healthcare services in rural and underdeveloped areas.

We are proud that we have a proficient team and support staff working with us. With efficient management and teamwork, we have come a long way while serving needy people and maintaining good rapport among them. We have succeeded in bringing together multiple specialties under one roof and today the clinic has evolved into a healthcare ecosystem.

Our healthcare ecosystem consists of:

- **Holy Basil Hospital**
- **Holy Basil Labs**
- **Holy Basil Matra Private Limited (Digital Segment)**

Our digital segment is a collaboration between Holy Basil and Matra Private Limited. This company aims to add the power of digital and Artificial Intelligence (AI) to Healthcare Ecosystem.

We are empanelled with DGS and DGCA for conducting medical examinations of seafarers and student pilots.
